Kelly Storey Promoted at Spectralux Avionics

Spectralux is pleased to announce that Kelly Storey has been promoted to Spectralux Quality Manager. In this role she is responsible for promoting customer requirements and making sure they are implemented throughout the organization. She also ensures quality related issues with customers are tracked, coordinated and resolved.

Prior to this position, Ms. Storey had been Quality supervisor since 2007. While supervising, she held other positions of increasing responsibility within Spectralux including production supervisor, final inspector, audit coordinator, lead auditor, quality system administrator, and corrective action coordinator. Kelly has completed formal training in lean manufacturing, SPC, DOE, and Kaizen and is also a certified Designated Manufacturing Inspection Representative (DIMR) for the FAA. Kelly is a great asset to Spectralux with more than 29 years in aerospace.

About Spectralux Avionics

Spectralux Avionics is passionate about providing data link communication equipment and flight deck electronics that enhance flight crew performance and support efficient operations. With over 40 years of design and manufacturing experience, our products perform the most challenging requirements of air transport, regional airlines, business aviation, military programs, and now space with the Orion Spacecraft. www.spectralux.com
