

FOR IMMEDIATE RELEASE

01 January 2015

Hummel Director of Engineering

Frank Hummel has joined Spectralux as Director of Engineering, leading engineering with over 30 years of avionics product development experience. From a hands-on engineering beginning to senior corporate leadership positions, Mr. Hummel has been directly involved with the development, certification, manufacture and market introduction of numerous innovative and ground breaking avionics products throughout his career.

Mr. Hummel's product experience covers Cockpit Voice & Flight Data Recorders, Flight Management Systems, Terrain Awareness & Warning Systems, Airborne Data Link Systems, Flat Panel Display technologies, and Synthetic Vision Systems. Hummel has also led and implemented hundreds of cutting-edge process improvements and best practices to streamline operations, reduce cost, and increase productivity.
